PROFILE

Motivated and adaptable junior software developer with an academic background in Economic Engineering and hands-on experience in backend development using C#, SQL, and .NET technologies. Experienced in building REST APIs, desktop applications, and database-driven applications while continuously expanding technical knowledge through personal projects and self-learning.

Strong problem-solving, communication, and analytical skills developed through both technical work and customer-facing roles. Comfortable learning new technologies, working independently, and adapting to different environments and responsibilities.

TECHNICAL SKILLS

- Languages: C#, SQL, Java
- Backend: ASP.NET Core Web API, RESTful APIs, MVC (Learning), HttpClient, JSON
- Databases: SQL Server, MySQL, MongoDB
- ORM & Data Access: Entity Framework Core, Dapper, ADO.NET
- Languages: Albanian (Native), English (C2), Italian (B2)
- Concepts: OOP, SOLID, LINQ, DTOs, Dependency Injection, Async/Await, Authentication & Authorization, Pagination, Filtering & Sorting, Repository & Service Patterns, Clean Architecture, MVVM
- **Testing & Tools:** NUnit, xUnit, Git, GitHub, Version Control, Docker (Learning), Azure (Learning), Integration Testing (Learning)

Additional Technical Knowledge

- AutoCAD (basic)
- SolidWorks (basic)
- HTML & CSS

Technical Projects

E-COMMERCE PLATFORM | ASP.NET CORE WEB API, EF CORE, SQL SERVER

GitHub: <https://github.com/Ledana/EcommerceAPI.Ledana.git>

- Developed a RESTful ASP.NET Core Web API following Clean Architecture principles.
- Implemented many-to-many relationships, DTOs, model validation, dependency injection, and asynchronous operations.
- Added pagination, filtering, sorting features.
- Built a separate console client consuming API endpoints through HttpClient.

SHIFTSLOGGER | ASP.NET CORE WEB API, EF CORE, SQL SERVER

GitHub: <https://github.com/Ledana/ShiftsLogger.Ledana.git>

- Built a RESTful API supporting CRUD operations for employee shift management.
- Used EF Core migrations, LINQ queries, DTO mapping, and SQL Server relational data management.
- Developed a separate console client using HttpClient and JSON serialization.

BANKACCOUNTMANAGER | C#, WPF, ADO.NET, SQL SERVER

GitHub: <https://github.com/Ledana/BankAccountManagerConsole.git>

GitHub: <https://github.com/Ledana/BankAccountManagerWpf.git>

- Developed banking application with both Console and WPF interfaces.
- Applied MVVM architecture and managed transaction operations using ADO.NET.
- Implemented account management, deposits, withdrawals, and transaction tracking.

ADDITIONAL PROJECTS

- Phonebook Contact Manager: CRUD application using EF Core, LINQ, and SQL Server with input validation.
- Coding Tracker: Lightweight CRUD application using Dapper ORM and NUnit testing.

Education

Master in Economic Engineering | Polytechnic University of Tirana | 2020

Bachelor in Economic Engineering | Polytechnic University of Tirana | 2018

Professional Experience

CUSTOMER SERVICE REPRESENTATIVE | TELEPERFORMANCE | 2020–2024

- Resolved customer issues and managed order-related inquiries for Amazon accounts.
- Investigated transactional problems and collaborated with internal teams to deliver solutions.
- Strengthened communication, analytical thinking, and problem-solving skills.

CASHIER | SPAR ALBANIA | 2019–2020

- Managed customer transactions and maintained cash handling accuracy.

SALES AGENT | CCL ALBANIA & LOCAL WEB | 2016–2019

- Assisted customers and promoted software/web solutions to business clients.
- Developed communication and customer service skills in fast-paced environments.
